TUESDAY, APRIL 22, 1907.

WHERE IS HE AT?
The Mayor is still playing house—of Commons. It is to the credit of the council's sense of propriety that they neglected the foolish notion to resolve themselves into a private club committee, but this notion also shows that his worship felt he needed some sort of excuse for his extraordinary ruling, and when the council would not play pique for him, in his characteristic manner he said it didn't matter, he would vote twice anyway if necessary.

It is plainly evident that the Mayor had made up his mind to give an exclusive franchise to the Natural Gas company and to refuse any reasonable franchise to the other gas company, and his double vote shows the length to which he was willing to go to attain his end. It is a pity that the council was willing to submit to his dictation, but the members of it were so anxious to grant the exclusive franchise that they were willing to stand this humiliation to carry their point.

When the artificial gas company met the committee the other day, the Mayor said that the citizens didn't want gas. It is true that his worship is not able to gauge the pulse of the city very clearly, but he would need to know very little of the wishes of the electorate to know that practically every business man in the city wants gas, and wants it at once.

The Mayor is adopting the same autocratic run-running-the-show attitude on the gas question as he did upon the sewer pipe contract, when the city paid \$5,000 more for the pipe than was necessary.

Some of the aldermen are alive to the situation, and it is about time the rest woke up and prevented his worship using the city as a plaything for the remainder of the year. This city needs a practical business man at its head, a man who is in touch not only with public opinion but with the public necessities of the city, a man strong enough and capable enough not to require two votes to enforce his opinions, and whose actions will not necessitate motions—such as the private bills one—only serve only to bring the city council into ridicule.

THE POLICY OF EXCLUSION.

A few days ago Mr. J. E. Armstrong, member of Parliament for Lambton, made an attack on the British preferential tariff. It was not much of an attack of course, and in the nature of things could have been expected to amount to nothing, considering its parentage. But in these days of opposition poverty anything affording a pretext for saying anything about what the Government has done or may be expected to do has been seized upon as food for the hungry and the attack of Mr. Armstrong was joined in by Mr. Foster and Mr. Fowler. The complaints of Mr. Armstrong were sent to Great Britain for completion and shipped to Canada under the preferential tariff. This of course was represented as an outrage and a sign of the peculiar indifference of the Government to the Canadian manufacturers. Mr. Armstrong was assured that the abuse was of no considerable proportions and that the officials of the Customs Department were on the alert for cases of violation. Assuming that his information was correct certainly no species of manipulation could be comparable in effect to the beneficial results of the preference, and the incident served merely to illustrate the readiness of the Opposition to take hands in condemnation of any policy which either in its application or its abuse permitted the Canadian consumer to procure any quantity of any kind of manufactured goods cheaper than the Canadian manufacturer might be pleased to supply him.

Somewhat curiously Mr. Armstrong continued his special pleading by the small amount of Canadian goods imported into Germany. Granted that our imports to Germany are small they are increased by the abrogation of the British preferential tariff. Assuming for the moment that German manufacturers do profit to a degree by the violation of this tariff would they buy more of our goods if we abrogated the tariff by whose violation they are alleged to benefit? If we desired a reduction of the German duty on Canadian goods the first step would be a reduction of the Canadian duty on German goods. Yet this would only be to increase what

the Opposition are pleased to represent as a mistaken policy—that of permitting the importation of manufactured goods. Mr. Armstrong has mastered the tariff policy of the Opposition. It demands simply the absolute exclusion of all manufactured goods beyond peradventure and involves the condemnation of any and every line of policy which either in operation or abuse can be represented as offering any possibility of importation.

THE GAS FRANCHISE.

A company stands ready to serve the citizens of Edmonton with artificial gas. The city is not prepared to enter into the gas business upon its own account. The company does not ask for an exclusive franchise, all they want is a reasonable agreement by which they can pipe the streets and sell gas. The business men and manufacturers of the city want gas, and want it badly, they are being deluged with electric energy by the city plant, though the city is built upon a coal mine.

The question as to whether or not we shall have artificial gas would seem to depend upon the whim of the man who happens to be mayor.

Artificial gas as a summer fuel would be a boon to hundreds of homes in Edmonton, and as light it would be cheaper than electricity and so help many a householder to meet his bills. It would not be a competitor of the electric light plant as its capacity will be overtaxed for some time to come. For proper purposes it would be as great a convenience to small manufacturers. Is the city to be deprived of gas because we have a mayor who prates of municipal ownership one day and arrogates to himself two votes the next that he may create a monopoly in natural gas operations in the city? It is up to the city council.

NOTE AND COMMENT.

Prospectors are rushing to Larder lake for a fat pocket.

"No loyalty like the loyalty of free men" is a good watchword for the Colonial Conference.

King Edward will take the tomb of Charo. Not Kaiser Wilhelm be jealous?

Delmas thought he was reading off an epic poem, but it was just what the English papers say, mere flapdoodle.

The Railway Commission is about to put the golden rule to its supreme test. It is going to let the C.P.R. and G.T.R. to lend cars to the C.N.R.

Col. Sam Hughes declares he is neither a braggart in the forum nor a coward in the field, that is, when his man Turpin is by his side.

Foster's names of "cheats and swindlers" with which he attempted to brand Laurier and Fielding in 1904 have come back to haunt himself. He has never been able to get out of his glass house.

Laurier and Bona rode side by side at the Lord Mayor's Dinner in London while Sam Hughes and Henri Bourassa were kicking each other over the wagon tongue.

Compare the healing, benedicting, nationalizing influence of Drummond's verse with the raw-edged perorations of Henri Bourassa and you have an example of how the gifts of genius may be used and abused.

Mr. Aylesworth is showing "the same sort of mind as a politician" that placed him at the head of his class in college and at the head of the Ontario bar in his profession. He will grow still greater on the abuse of his opposition.

Hon. Mr. Lemieux is carrying on a good work initiated by Sir William Mulock by effecting a reduction from eight cents to two cents a pound in the postal rates of British periodicals for Canada. This is the right kind of imperialism.

"There have been some exceedingly 'dry' transactions brooding to 'light before the Insurance Commission.' It is a question whether anything more grossly improper has been revealed than the action of the three directors of the Trust Co. of Canada, McGillicuddy, Foster and Wilson." This was the editorial comment of the Toronto News at the time the investigation was going on and is an interesting observation in the light of Mr. Foster's recent defence in the House.

Seeding in Manitoba. Winnipeg, April 22.—Seeding is fairly general throughout Manitoba to day.

IT TAKES MONEY TO BUY POTATOES

Prediction that Tubers Will Advance to \$60 a ton in Tacoma This Summer.

Tacoma, April 22.—Commission merchants predict that the first of the new crop is harvested potatoes will go to \$50 a ton or even more. Such an advance would not be without precedent, as spuds have sold in Tacoma within recent years for as much as \$60 and \$70 a ton in rare instances.

The supply of potatoes on this side of the mountains is very limited and Yakima stocks are said to be none too large. It is only a question of a month or more, declare some reliable market prophets, before the Washington supply will be so cleaned up that cars will have to be imported from the Dakotas, Minnesota and Wisconsin. The farmers in that region have fairly well filled bins yet, but no great surplus after they have been called for by the coming crop and supplied local wants. As soon as the states of the Pacific Northwest begin calling upon them for shipments, prices will go up five or six cents.

A car of Early Rose seed potatoes received in the city today by a commission merchant and quickly disposed of. It was the first shipment of consequence that had reached Tacoma and it proved but a drop in the bucket to what was called for. The lot came from Spokane and sold for \$60 a ton. Dealers say that not in many years has there been such a scarcity as now. Last season the potatoes were flooded and the price was low.

WILL NOT WED.

Refusal of Senator Ross Deny Stern of Ex-Premier's Marriage.

Associated Press Despatch. Toronto, April 22.—Rumor was current last week that Hon. C. W. Ross, ex-premier of Ontario, and now member of the House of Commons, was shortly to wed Miss Scott, principal of Branks Hall ladies college, Brantford. Inquiry among relatives of Hon. Mr. Ross elicited the information that the rumor was without foundation. It was further stated that Miss Scott had been very greatly annoyed by telephone messages, telegrams and letters from all parts of the country congratulating her upon her coming wedding.

Tenders for Licenses to Cut Timber on Dominion Lands in the Province of Alberta.

Sealed tenders addressed to the Commissioner, Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 1243," will be received at this Department until 12 o'clock noon on Wednesday, the 24th day of June, 1907, for a license to cut timber on Berth No. 1243, comprising lands situated in the Province of Alberta, on the McLeod River, and described as follows:—

Commencing at a point on the McLeod river at the upper boundary of Timber Berth 1092, thence up stream 5 miles in direct distance with a depth of one-half mile, and then along at right angles to the general bearing of said river within the Berth, excluding therefrom any portion of Timber Berth No. 1093, which may fall within the same, the lower boundary to the upper boundary of said Berth No. 1093, containing an area of 27 square miles, more or less.

The berths, Carro H. riden w. The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, and also printed forms of tender and envelope, may be obtained at this Department or at the Office of the Crown Timber Agent at Edmonton, Alberta.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior for the amount of the bonus which the applicant is prepared to pay for a license. The highest or any tender not necessarily accepted.

No tender by telegraph will be entertained.

PERLEY G. KEYES, Secretary.

Department of the Interior, Ottawa, April 22, 1907.

the operators have broken the law we would respectfully ask that you retract the statement.

"If no such statement was made, we would respectfully request that you give the report which has been published broadcast your denial."

WESTERN COAL OPERATORS ASSOCIATION.

DID SHERMAN TRICK THE MINE WORKERS?

Associated Press Dispatch.

Calgary, April 22—A statement was made yesterday by a prominent coal mine manager, charging the present trouble to the trickery and double dealing of the leading officials of the Miners' union. Sherman is charged with cruelly deceiving the miners, the majority of whom do not believe the situation. He is charged also with bringing about the present strike by selling miners on one side of the Crow's Nest Pass that the men on the other side were already out which was untrue, and that day going to the opposite side of the Pass and repeating the same story.

Charges Against Officials.

The charge is also made that John Dalvin, vice-president of the union, stuffed the ballot box in connection with the referendum vote as to whether a strike should be declared.

It is claimed to be significant that the conference between officials and managers takes place tomorrow at Fernie.

Looks For Settlement Wednesday.

Associated Press Dispatch.

Winnipeg, April 22—Mackenzie King, Deputy Minister of Labor, went west from here to Fernie yesterday morning. The Board of Conciliation, he states, will be appointed today and he hopes to see the trouble at the mines settled by Wednesday.

Retired Stock Unlaid.

Associated Press Dispatch.

Augusta, Me., April 22—The authorized capital stock of the Nipissing Mines Company was reduced one half to \$500,000 at an adjourned meeting of the company today. The reduction of the stock was met with no opposition. The \$500,000 of stock thus retired never had been issued.

Trusted Clerk A Thief.

New York, April 22—David D. Steadman, a trusted clerk in the New York post office who has occupied positions of trust for 18 years was arrested today charged with the largest sum of money from foreign registered letters.

LACROSSE MEETING.

There will be a meeting of the management of the Edmonton Lacrosse Club at the Young Liberal club rooms at 8:30 this evening. Some important business to be transacted.

DIED.

In Edmonton, Sunday, April 21st, 1929, Emma Lillian, beloved wife of Emerson Wiedrick, aged 24 years 11 months and 4 days.

The funeral will take place from the undertaking establishment of Moffatt, McCoppin & Bull, on Wednesday, April 24th, at 1:30 p.m.

Friends and acquaintances kindly accept this intimation.

ATHABASCA LANDING

A Town of Wonderful Possibilities
ATHABASCA LANDING

The Key Centre of Northern Trade

The Geographical Point of Entry to the
Great North Country

Greatest Fur Trade in the world flows through Athabasca Landing. Its agricultural, timber, mineral and oil resources to the north and west guarantee permanent and unprecedented prosperity. Possessing every desirable natural advantages essential to phenomenal commercial and industrial development.

Athabasca Landing is the Logical Terminus of the C. N. R. Morinville extension. At the head of navigation, steamers leave Athabasca for the Lesser Slave, the connecting link to Grand Prairie, and the vast fertile valley of the Peace River District. No other available route to this magnificent northern empire of boundless wealth.

It is dead sure certain that the timber resources along the upper Athabasca are in themselves sufficient to make Athabasca Landing a great, world famous lumbering centre. All the thousands and tens of hundreds thousands feet of fine standing timber along the McLeod, Eagle and other timber tributaries of the Athabasca River must necessarily be sawed at the landing; thus this rapidly growing town is destined soon to become an active, progressive and enterprising, manufacturing city of the last Northwest.

Present population exceeds 1,000 inhabitants, 2 hotels, one chartered bank, several general stores, warehouses, shypyards sawmills coal mines, natural gas in unlimited quantities, excellent water power, a score or more trading post headquarters for as many different fur trading, mining and exploiting companies who use the Landing as the base of supplies for their extensive northern operations. The Hudson's Bay Co., Revillon Bros., and others keep large quantities of general merchandise stored at this point. This bustling community is only 98 miles north of Edmonton and connected by the best and most dependable stage service in the prairie provinces.

Will be Third City in the Province in Five Years

BUY IN THE NAGLE & HYSLOP STRIP
RIVER LOT 1

Immediately adjoining on the west the Hudson's Bay Reserve, Nagel & Hyslop's large warehouse is located in the centre of this valuable site. This choice property is divided into 18 blocks—lots 50x110 ft. Streets are 80 ft. wide, lanes 20 ft. River front lots only \$500. Inside lots from \$25.00 and up according to location. Easy terms, 1-3 cash, balance 6 and 12 months. Best and only available Athabasca townsite property ever placed on the market.

A Rare Chance to make 1000 percent. on your investment
and to do it quick

This is opportunity staring you in the face. It has no equal as a sure money winner. Remember there is positively no Hudson's Bay Property for sale at any price. This actually is the only Athabasca Landing townsite property being offered for sale. Here is money for you—are you a live one. See maps and full information.

IN THE PRESS GALLERY AT OTTAWA

REDUCTION OF POSTAL RATES

On British Papers Coming Into Canada. New Rate is Penny Per Pound.

(From Our Own Correspondent in the Press Gallery.)

Ottawa, April 18.—The rate of postage upon British newspapers and magazines sent to Canada has been reduced, by agreement between the postal authorities of the Dominion, from 8 cents per pound to one cent per pound.

This announcement was made simultaneously today by Right Hon. Sir John Thompson, the Postmaster-General of Great Britain, in the House of Commons at Westminster and by Hon. Sir John Thompson, Postmaster-General of Canada, in the House of Commons here.

It was stated that this important announcement should be made on the day when the Colonial Conference assembled in London.

In Force Next Month.

Hon. Mr. Lemieux's statement this morning was to the effect: "The following arrangement has been made between His Majesty's Postmaster-General (Mr. Sydney Buxton) and the Postmaster-General of Canada (Mr. Lemieux) and will come into force on May 1st, 1907."

"At present the rate on British newspapers, magazines and trade journals going to Canada is in question. At this rate and under existing conditions the articles in question are unable to obtain a footing in Canada, with the consequence that the volume of newspapers, magazines, etc., circulated in Canada is very much less than it should be."

"This state of affairs is unfavorable to the growth of close sympathy and common sentiment between Canada and the mother country, and it is, at the same time, prejudicial to the mutual trade and material interests of both countries."

"With a common desire of providing and encouraging in regard to these matters, free and more mutually profitable intercourse between the United Kingdom and Canada, His Majesty's Postmaster-General and the Postmaster-General of Canada have agreed to the following:

Penny Per Pound.

"The postage from the United Kingdom to Canada on registered newspapers and on bona fide magazines and trade journals (published at regular intervals of not more than one month) is to be reduced to a rate of a penny per lb. on each packet, the charges on packets not exceeding 5 lbs. remaining at a half-penny. The present limit of weight of the for a packet will be maintained and con-

tain administrative regulations will be laid down by the British postal authorities.

"This special reduction will place Great Britain in the future in at least as favorable a postal position towards Canada in regard to the articles in question as that occupied by any other country. The reduction is based on a consideration of the very special and peculiar position, geographically and otherwise, occupied by Canada, and is granted also in consideration of the fact that the Dominion Postmaster-General undertakes to carry free of ocean transit charges all British newspapers, magazines and trade journals sent from the United Kingdom to Canada by vessels under contract with the Canadian Government, thus giving such British postal office of the cost of such transit charges on the articles in question (approximately 4 1/2 cents a lb.).

The arrangement will remain in force for a period of four years, unless previously modified or extended by mutual agreement."

In reply to Mr. Foster, Mr. Lemieux said that the new arrangement would involve a loss to the Canadian revenue of between \$25,000 and \$30,000. The loss to the British Post Office would be approximately \$100,000. He desired to express the special thanks of Canada to Mr. Buxton, who had given a concession to Canada long refused by his predecessors.

Attorney-General Green.

Hon. and Mrs. Green are in the city en route to England.

Agricultural Experiments in Peace River.

Prof. S. Lawrence, J.P., who has been in Ottawa for the past two weeks, returned today by way of Chicago. The Department of Agriculture has arranged with Mr. Lawrence to carry out a series of experiments in agriculture, horticulture, etc., at Fort Vermilion, Peace River.

FLOATING STONE.

The country was covered with hail-stone of snow this morning. No seeding here yet, but cabbage and tomato plants in hot beds are looking fine.

Mrs. C. N. Johnston has moved out to her homestead.

Mr. Thomas McCullough made a trip to Saddle Lake Saturday, returning Monday.

Mr. Joy has been quite ill of pleurisy.

Harry Longden, who has been boarding at L. M. Greenfield's all winter, has taken a homestead at Saddle Lake.

Pied Point and family were in the city yesterday.

The party given at Mrs. C. N. Johnston's in honor of her mother's birthday was a decided success.

THE ESTIMATES FOR IMMIGRATION

Came up in House, and Some Members Showed Lack of Knowledge on Subject.

(From Our Own Correspondent in the Press Gallery.)

Ottawa, April 17.—The immigration estimates came up yesterday, and, as usual, were made the target for questions and criticisms from the Opposition, not the least interesting function of which was to show how little some members of the Canadian Parliament know about this branch of the national business.

Nothing Too Good For Canadians.

Mr. J. D. Reid, Opposition member for Grenville, Ontario, wanted to know whether it was true, as he had heard, that Canadians going from the eastern provinces were not so well treated by Government officials as immigrants from other countries.

His fears were set at rest by the Minister of the Interior, who said: "I have heard, as my hon. friend has heard, that the native Canadian does not get the same share in the Canadian West as the foreigner."

Well, that is a mistake. There is, however, this to be said, that the foreigner who does not speak the English language deserves and must receive an attention that an English-speaking man does not need, and would resent if offered him. Therefore when foreigners come here speaking no language but their own, who are not familiar with our laws and system of government, if we wish them to acquire an understanding of the advantages that are offered to them and of the obligations which they are taking upon themselves, we must pay them an attention that the Canadian certainly does not require, because he understands thoroughly our laws and is himself a part and parcel of the government. But so far as facilities for locating lands are concerned, that is to say, the selection of lands, making entry therefor, and so on, precisely the same facility is offered to every one alike. Our land offices are as wide open to one man as to another. The German, the Italian, the Bohemian, when they reach the land agencies, and a good many of the sub-agencies receive no favors over the Americans or the Canadians. There is no distinction in any way in the disadvantage of the Canadian. But I beg to assure my hon. friend that while it is not the policy of the government to enter upon a campaign to induce people from the eastern provinces to go to the western provinces, and I have every reason for believing that such a campaign would not be looked upon favorably by the eastern provinces, indeed we are not allowed to enter upon such a campaign, I want to say this when Eastern Canadians are in the mind of the administration.

The Opposite View.

J. F. Macdonald, of Kingston, Prince Edward Island, had an exactly opposite view. He thought the immigrants sold out to entice poor Canadians west were too strong. These, however, were not offered by the government, but by railway companies, and he did not see that anything could be done to remedy matters.

The Eastern Provinces and the Immigrant.

Dr. Daniel, of St. John's, N.B., thought that too little effort was made to induce immigrants coming to Canada to remain in the eastern provinces. He was an antidote to this came "Billy" Bennett, of East Simcoe, and "Trick" Wilson, from Lennox and Addington, denouncing the means taken by the government to "place" farm laborers in Ontario. Their suggestion appeared to be that local agents for distributing purposes were altogether unnecessary, that the immigrants should be left to find jobs and the farmers to find help when, where and how they could. Reminding the farmers of late years for farm help, there is no reason to doubt the sincerity of Messrs. Bennett and Wilson. They would undoubtedly have been immensely pleased if the government had distributed the farmers and incurred their wrath.

Naturally.

Mr. Fowler, of Mark, said that the House was on the wrong scent altogether. The real estate agent was the man who brought new-comers to the West, and not the government agents and literature.

Mr. Bourassa protested that he had no objection to desirable immigrants coming to Canada and attested the strength of his enthusiasm in the cause by denouncing almost every class who have come and are likely to come.

Mr. David Marshall, the canning factory member for East Elgin, wanted the department to make a special test to import a large number of strong, healthy girls suitable for working in canning factories.

Hoskins' Estate Over \$100,000.

Toronto, April 22.—The late Alfred Hoskins, R. C., left an estate of \$113,400. The widow receives a life interest in the property and on her death \$50,000 is to be paid to each of the three daughters. The estate goes to Alfred E. and William A. G. of Winnipeg. Mr. Hoskins held land mortgages in the west valued at \$80,000.

Asphalt Trust Controls Railway.

Washington, April 22.—In a complaint filed today with the interstate commerce commission by the Asphalt Association against the Utah Railway Company of Utah, an attack is directed against the so-called asphalt trust which is said to control the railroad. It is alleged that the railroad is being used to oppress with unjust and discriminatory freight rates the Asphalt Association, which is a competitor of the trust.

Spain Goes Conservative.

Madrid, April 22.—The elections to the chamber of deputies yesterday according to the official returns favor the Conservatives. Of the total of 404 seats in the chamber, Conservatives have been elected to 190 seats, Liberals to 50, Republicans to 20, Carlists 5, and Independents 2, leaving 134 with results unknown.

C.P.R. Expended That Amount
in Five Years. Sir Thos.
Shaughnessy's Statement

Winnipeg, April 22.—While the car shortage agitation was at its height last February, it was stated that the matter would be brought to the attention of the members of the House at Ottawa. In anticipation of such a step being taken, Sir Thomas Shaughnessy, president of the C.P.R., wrote Sir Wilfrid Laurier, giving a full statement of the case from the railway side. Since that time a copy of the letter has been received here together with permission to make its contents public.

The letter, first recalling the various obligations passed on transportation companies, and affirming the sense of obligation felt by the companies to fulfill their public duties in return for their charters and attendant privileges received from parliament, goes on to say:

"I do not believe that there is any disposition on the part of our Canadian railway companies to deny the facts. They admit, I think, that they have been unable, at times, to move all the traffic offering with a desirable degree of promptness, because the volume at such times in excess of their facilities, and they may properly be asked 'Why was this the case?' Why have you not the requisite facilities?"

"In the present instance the railway companies call attention to the abnormal development that has taken place in the country during the past five years, a development that has resulted not only in a vast expansion of the traffic to be transported, but has increased a hundred fold the difficulty about getting men and material to do the work necessary to enable the railways to handle it.

Too Much to Do.
"Cars and locomotives were not the only essentials. Increased crossing allowances were required, so that a greater number of trains could be moved over a given section each 24 hours. Terminal yards, roundhouses, shops and freight houses had to be enlarged and additional water service to be provided. Then there was the road bed of the railway to be strengthened and improved, in order that it might be able to bear the strain of the additional tonnage that it was required to carry and a thousand and one other works were rendered necessary.

"Have our railway companies been executing these works during the past five years.

Tremendous Increase.
"I can answer for only one railway company. At the end of the year 1901 the Canadian Pacific Railway company had 720 locomotives and 22,675 freight cars. At the end of 1906, five years later, the company had 1,204 locomotives and 37,467 freight cars, so that in these five

years there was an increase of 479 locomotives and 14,791 freight cars or about 70 per cent. In each case without taking into account the fact that each locomotive and each car was of much greater capacity than those previously in service. These, with the passenger cars and rolling stock equipment purchased and built, or in process of construction at the end of the year, represent an expenditure approximating \$28,000,000.

Outlay in Cold Figures.

During the same five years the outlay for other facilities, such as line improvements, shops, roundhouses and other works calculated to facilitate the operation of the line was about \$44,000,000 or a total of \$72,000,000, and these figures, understand are quite exclusive of \$38,000,000 spent by the company in the same years for the construction of new railway lines to further develop the country and for steamships to strengthen Canada's position on the Atlantic ocean. For these latter purposes another class of security is issued while the cost of equipment and additions and improvements were met by the sale of the company's capital stock which realized more than its face value and by appropriations from the company's cash reserves.

Seventy-two Millions.

"So that, during these five years, in their endeavor to meet the most gratifying growth of the country's business, the shareholders of this company put back into the property cash to the large amount of \$72,000,000, an average of over \$14,000,000 per annum or about one and one-half times the sum that they had received during the same period in dividends on their shares.

"When one takes into account the labor, the material and the organization necessary to judiciously expend such a vast sum of money in five years, the marvel is that so much was accomplished. But more would have been done if it were possible. Indeed, several large works for which money had been appropriated last year were carried over because of our inability to get them completed.

"We have an order today for delivery during the next four or five years, rolling stock equipment to the value of \$11,500,000 and we hope to have it all in service before the autumn business commences to revive. So that you see that there has been no disposition on the part of the Canadian Pacific to shirk its responsibilities or to fill its coffers to the neglect of the country.

Manitoba Grain Act Interferes.
"Might I in conclusion be permitted to mention the serious extent to which railways are deprived of the use of their equipment in Manitoba, Saskatchewan and Alberta during the busiest season of the year by reason of the provisions of the Manitoba grain act governing the allotment of cars to individual applicants? I know that the purpose of the act was to protect the farmers in the matter of the selling price of their wheat. If legislation could be framed that would give farmers this same protection while using the elevators that have been provided at some stations in the grain-growing territory it would I am sure, facilitate the movements of the crop and be of advantage to everybody concerned."

**FRIEND TO FRIEND.**

The personal recommendations of people who have been cured of coughs and colds by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.

THE JAMESTOWN EXPOSITION

Will Open This Week. It is 80 per cent. Completed. Big Naval Displays.

Norfolk, Va., April 22.—Despite the splendid efforts of a corps of energetic officials, thousands of workmen and landscape gardeners, the Jamestown Centennial Exposition will be opened this week in an unfinished state. Many of the magnificent structures that are to house domestic and foreign exhibits and shelter the achievements of the industrial arts are incomplete.

The grounds and buildings at the exposition are about eighty per cent. finished. No exposition ever has presented such a permanent appearance, and this, in a great measure, is responsible for the delay. Several of the most important buildings are built solidly of brick, cement and iron, and these are intended to remain on the grounds as the nucleus of a great park.

Will Reproduce Pioneer Conditions.
No other exposition has attempted to show the world the life of the colonists, the hardships of the pioneers, who opened up a new country. Into all this has been thrown touches of the romantic. Twenty-five states of the union will trace their history from their earliest day into the present, and the exhibits will be sheltered by appropriate buildings reproducing early colonial mansions and frontier forts.

Great Naval Display.
The State buildings have been grouped along the historic shore of Hampton Roads and they command an excellent view of the harbor of the world. It is this grand display of naval power that will prove the crowning glory of the exposition.

It is expected the vessels will attract world wide attention, for the fleet will number besides several of the best types of each foreign naval power, the Atlantic fleet of the U. S. navy under command of Rear-Admiral Evans. The fleet is already anchored in Hampton Roads, but the ships have taken the positions furthest from the waterfront to give the commanding locations to the foreign visitors on Friday.

APPOINTMENTS AND ORDERS IN COUNCIL.

The following provincial appointments have been gazetted and are as follows:

Under the provisions of The Pound Districts Ordinance, the Minister of Agriculture has been pleased to make the following appointments:

Pound Keeper.
A. M. Tupper, of Kitley, the pound to be kept on the north-west quarter of section 14 Township 51 Range 3 west of the Fourth Meridian.

Orders in Council.
His Honor, the Lieutenant-Governor, has been pleased to Order that Townships 52 and 53 in Ranges 5 and 6 west of the Fifth Meridian be formed into a Local Improvement District. That the name and number of the District be 26-C-5, and that the District comprise the following Divisions:
Division No. 1.—Township 52 in Range 5 west of the Fifth Meridian.
Division No. 2.—Township 53 in Range 5 west of the Fifth Meridian.
Division No. 3.—Township 52 in Range 6 west of the Fifth Meridian.
Division No. 4.—Township 53 in Range 6 west of the Fifth Meridian.

Alteration of Area of Local Improvement District.
His Honor, the Lieutenant-Governor, has been pleased to Order that that portion of Township 51 Range 26 west of the Fourth Meridian lying south of the Saskatchewan river, being part of Division No. 1 of District 26-C-5, be withdrawn from the area of said District and added to Division No. 3 of District 26-C-5.

His Honor the Lieutenant-Governor has been pleased to Order the establishment of legal subdivisions 8, 9 and 10 in Section 19, and legal subdivision 5 in Section 20 Township 53 Range 18 west of the Fourth Meridian, as a Village under the name of Mundare, that Thursday, the 21st day of March 1907, be the day fixed for the election of an Overseer of the said Village; and that John H. Milne of Mundare, be appointed to act as Returning Officer at the said election.

Another Mixed Up in It.
Theft by Trust Co.'s Clerk Brings Prominent Broker Into Case.
New York, April 22.—It was reported to-day that a large quantity of the bonds stolen by W. O. Douglas from the Trust Company of North America had been found hidden in a mattress in the room of a prominent broker in a fashionable up town club. Roger says also that the police are searching for the broker and that up to a late hour this afternoon they had not succeeded in finding him.

CHAMPIONSHIP TROPHY.
The championship trophy presented by the provincial department of agriculture to the winner in the stock judging contest at the Calgary spring show has been brought to the office of the deputy minister before being sent to the winner, Mr. T. H. Tinney, of Medicine Hat.

The trophy is a swinging silver water jar, two feet high, with a cup mounted on an ebony base with two house horses, one on each side. The jar bears the name of the winner and the donors. The trophy will be sent to Mr. Tinney in a few days.

Mr. Tinney won the prize from eighteen contestants where the champions of the various local stock judging contests in the province.

G. A. JOHNSON PROPRIETOR.

"I tell you, neighbor, ST. GEORGE'S BAKING POWDER makes fine cake and pastry."

"Of course you said so—but Baking Powder is one of the things that a baker must try for himself."

"That's right! What's the use of buying the best pastry flour, creamery butter and rich milk—and then have one of those alum baking powders ruin the baking."

St. George's Baking Powder

is a pure Cream of Tartar baking powder. I know it by the way the paste rises. You have eaten my Cakes, Pies and Fancy Pastry for years. Have you ever known them to be quite so light and flaky—and taste so good—as they do now? It's all due to ST. GEORGE'S."

"Yes, neighbor, we old fellows have found out about Baking Powders by practical experience. And ST. GEORGE'S is the best baking powder I've ever tried—not only for bakers, but for home cooks as well."

OUR NEW COOK BOOK is a daily help in the kitchen. It tells how to select and prepare meats, vegetables, etc.—and gives all sorts of recipes. Sent FREE. National Drug & Chemical Co., Limited, Montreal.
